

**To Whom It May Concern:**

**RE: Charles Nadeau**

Charles Nadeau assisted us with the renovation of our new home in May 2009. As project manager Charles really helped us create the home of our dreams.

Charles had great communication skills to help put our ideas into reality and really listened to what we wanted. He also had great suggestions and was up to date with the latest trends in home décor and finishes. He assisted us in sourcing many of the products we selected and always had a solution to a problem.

Charles' greatest attribute was his attention to detail. He always called us over the slightest detail which we really appreciated and feel many of these small touches have made our home perfect. He was also always available to ask questions and very responsive.

I wouldn't hesitate to recommend Charles for any renovation project and wish him all the best for his future career in the United States.

Kindest regards,
